

The First Time (feat. Rudy Sandapa)

Dirty South

The first time, it was deeper than ever
Like sunrise, burning on forever
My heart's on fire, I felt you from far away
The first time, it was deeper than ever
I felt nothing til I found you
I felt nothing til I found you
I felt nothing til I found you
The first time, it was deeper than ever
So high, gone where eagles never been
Soar through the skies, the world's so far away
The first time, it was deeper than ever
I felt nothing til I found you
I felt nothing til I found you
I felt nothing til I found you
I felt nothing til I found you
I felt nothing til I found you
I felt nothing til I found you
I felt nothing til I found you
I felt nothing til I found you
I felt nothing til I found you
I felt nothing til I found you
I felt nothing til I found you
I felt nothing til I found you
I felt nothing til I found you
I felt nothing til I found you
I felt nothing til I found you
I felt nothing til I found you
