## **Until You Were Gone (feat. Emily Warren)**

## The Chainsmokers & Tritonal

Thought that I'd be better off if I were on my own I tried to put my finger on the moment we were on But the taste turned bitter, so I pulled the trigger And it's not so easy to move on, I guess I should have known Ice cold, I freeze up when I see you I left you just to find out that I need you So far, I wanna pull you closer Wish we could start the whole thing over Ever since I've left you, I've been tryina get you back And it keep getting worse I'm burning on the inside and the truth is that I didn't know how good you were Until you were gone (gone gone gone gone) Until you were gone! I always hoping only time would heal your plague Yet even though it's been so long, it still hurts just the same Now I'm finding that the break was binding I take back everything I said, won't you just come home?! Ice cold, I freeze up when I see you I left you just to find out that I need you So far, I wanna pull you closer Wish we could start the whole thing over Ever since I left you, I've been tryina get you back And it keep getting worse I'm burning on the inside and the truth is that I didn't know how good you were Until you were gone (gone gone gone gone) Until you were gone!
