

# At Night (I Think About You)

MNEK

In the morning I'm okay  
Just fine in the afternoon  
But at night I think about you  
Like an echo in my brain  
I wonder if you hear it too  
Cause at night I think about you And it's just madness  
How love can lead you to sadness  
I lay awake and imagine  
At night I think about you  
Even when I'm not supposed to  
Baby, sleeping without you just isn't right  
Trust me, I've tried it a thousand times  
At night I think about you  
Do you still think of me too?  
Cause I can't shake you off my mind  
And I don't know what to do  
At night I think about ya Cause at night I think about you Slowly when I close my eyes  
Every time I go to bed  
Your song still plays in my head  
How foolish of me to fantasize  
Bout everything we used to be  
Letting go ain't that easy  
It's just madness  
You're here then you're gone  
It's like magic  
I lay awake and imagine  
You think of me The way I think about you, baby  
Cause every night I'm going crazy  
At night I think about you  
Even when I'm not supposed to  
Baby, sleeping without you just isn't right  
Trust me, I've tried a thousand times  
At night I think about you  
Do you still think of me too?  
Cause I can't shake you off my mind And I don't know what to do  
Cause at night I think about ya  
Ooh, time after time  
Enduring watch you go, goodbye  
Show up in my dreams at night  
Cause, baby, in the dark you still shine  
Sad but true Nothing's the saddest getting over you  
Eyes are wide open the whole night through

Cause at night I think about you  
Even when I'm not supposed to  
Baby, sleeping without you just isn't right  
Trust me, I've tried a thousand times  
At night I think about you  
Do you still think of me too?  
Cause I can't shake you off my mind  
And I don't know what to do  
(Don't know what to do)  
Cause at night I think about you  
At night I think about you  
You, yeah  
I can't get no sleep at night  
At night I think about ya
