

Tonight's the Night (feat. Tammy Lucas)

Blackstreet

You know baby
Tonight's the night(Tonight's the night)
I know Ive been promising you everything in the world
Tonight's the night, Tonight's the night
But tonight's the night, tonight's the night, tonight's the night
Me and you, me and you
Tonight's the nightYour understanding is what brought us this far
Never demanding although you gave your heart
You made it easy baby for me to reveal all the love i have inside
Just how I really feel
So many lovers
And yeah I've had big fun
But none of the others took my heart
My playing days are done cause im ready baby
I never been this sure
You are the one I adore im gonna love you more starting tonight
Let's make tonight the night(we make up)
Let's make tonight the night(baby let's fall in love again)
Let's make tonight the night(tonight's gonna be the night)
Let's make tonight the nightI have decided the moment that we met
You was invited baby
I could never let you get away
I'm so glad you're staying giving me all the love i need
Making me feel the heat
Boy, It's been my dream,
It's been my dream for you to love only me yeah
Everything I want
Everything I need
Can't you see it? Destiny
Oh, let's make it tonight
Let's make tonight the night(let's make up)
Let's make tonight the night(in the beginning)
Let's make tonight the night(all the deeper love yeah)
Let's make tonight the night(to every little thing i wanted baby baby)
Tonight's the night, tonight's the night
You're everything I want(everything I want)
Tonight's the night, tonight's the night
Cant you see it? Destiny
Oh yeah
Let's make tonight the night(tonight's the night baby)
Let's make tonight the night
Dance with you, yes I do

Let's make tonight the night
Let's make tonight the night
Tonight's the night, tonight's the night, tonight's the night, tonight's the night, tonight's the night.
