

Machete

Moby

Yesterday, I felt so cold, I felt like I could die
Took the needles from my arms and put them to the sky
Watched the cold come take me, pull me down like I did know
I saw it gone, I saw it gone, I saw it gone, I saw it gone Hold myself up 'til tomorrow holds me
down again
Feel the darkness coming over, see how it begins
Come with me into the willow garden out tonight
Feel the darkness come, my moon will touch you with its light Help me, life was over, love, I
want to have you in my sights
See and I was overlooked, I had you in my hands
Like a lid of no survivors, nothing I don't mind
Help me break you, baby, help me break you with my mind
With my mind
With my mind
With my mind
With my mind
