

# Just Like Me

Usher

(Lil' Kim:)

You got it going on what, what

You got it going on what, what

Come on, come on

Strictly fuck with those 6-digit niggas

If the first one is a 9 they a buck behind

I live my rhyme

At the same time can't find myself layin' up

If you ain't payin' up

Bullets start sprayin' up

You know my niggas is sick

The game ain't enough

For you to run up in this

I need stacks of chicks

You know dream house money,

Shit you just like me so don't start acting funny.

(Usher:)

Your the kind of girl that makes

Everybody feel that your just so damn good, so damn good

But your secrets I found out

So don't deny what you're about

I know the truth you know I do I do

Cause...Chorus:

I know you get lonely

Just like me

And you want it

Just like me

But act like you don't

You know your just like me.

I know you get lonely

Just like me

And you want it

Just like me

But act like you don't

When you know your just like me.(Usher)

Quiet is kept you cry for help

When no one else is there I bet you touch yourself

Does it feel good?

Late at night calls, I bet you do it all

Anything to get it off

but you still persist to front on me.

Baby tell me.(Breakdown:)

Why oh why do we play this game of chase?  
When we know we both feel the same way  
And why do you put me through all these changes?  
When you know your just free like me  
Your just like me.(Lil' Kim:)  
If I had one wish in the world, I swear to God  
It would be for girls to rock pearls, straight out the oyster  
Voice your opinion Queen Bee made a million  
Got mirrors on my ceiling, so I can see it  
When you head be in between it, if I had a penis  
I'd be hard that's for real though, niggas start shit,  
I'd just flash out my dildo, ya'll move too quick  
I thought I'd be memorized by your cocaine bricks  
And you smoke gray 6, nigga I thought you was a groupie  
Obsessed fan with my picture in your hooptie  
You heard my record now you know I'm freaky  
So you wanna wreck it and you wanna see me  
How your dreams be, you want me sexual  
In a gun fight, 2 on 3  
I'm next to pull, and I love life  
Something you never could imagine, then you woke the fuck up  
It's just rappin'.Chorus:  
I know you get lonely  
Just like me  
And you want it  
Just like me  
But act like you don't  
When you know your just like me.I know you get lonely  
Just like me  
And you want it  
Just like me  
But act like you don't  
When you know your just like me.Don't front like your just like me.Just like me  
Just like me  
Just like me  
Just like me  
Just like me.
