

I Don't Even Know Your Name

Shawn Mendes

Oh, you waited so long
Sometimes it's hard to stand out
And you don't have to do anything else
Be yourself You, you dressed up so nice
But all I could see was your eyes
And the crowd came and pulled you away
And then you were gone Ooh, yeah
And I don't even know your name
All I remember is that smile on your face
And it'll kill me everyday
'Cause I don't even know your name
Oh, everywhere that I go
I see your face and it kills me to know
That you never know what you did to me
And now you're gone Yeah, I can't stop thinkin' bout' you
'Cause I don't even know your name
All I remember is that smile on your face
And it'll kill me everyday
'Cause I don't even know your name Yeah, I don't even know your name
I'm running, I'm searching
And I don't know where to start
I'm dying, my love
You punched a hole right through my heart
I won't stop, stop looking
'Till I hold you in my arms
'Cause I'm running, I'm running, I'm running
I'm running, I'm searching
And I don't know where to start
I'm dying, my love
You punched a hole right through my heart
I won't stop, stop looking
'Till I hold you in my arms
'Cause I'm running, I'm running, I'm running
And I don't even know your name
All I remember is that smile on your face
And it'll kill me everyday
'Cause I don't even know your name
