

Tall Glass of Something

Jake Owen

It's 100 degrees now we're makin
And that's making me wanna drinkGot a truck full of peaches
Single beaches round here but we gotta stay in rankThere's a bar in the back, yea that's where
we're hanging
It's a kiddy pool and a hose, kinda think we need iceSolos, toyos
Lift em up

()

I need a tall glass of something nice and strong
A little liquor and a loving to do all night long
I need a kick in the chest, a shot to the mix
A little hot, make this martini shake your hips
I said tequila, margarita, seniorita please
Chase it down with a na and some sex on the beach
A yellow umbrella foamy style, a kiss on my cheek
Just you and me, that's all I need
Oh and a tall glass of something(Sippin and juggin, sippin and juggin juggin)
(Sippin and juggin, sippin and juggin juggin juggin)I'll tell you one thing about me
I get thirsty about 5: 30

In the sunshine or the rain

So choo choo baby, come on hop on the trainLift em up

I need a tall glass of something nice and strong
A little liquor and a loving to do all night long
I need a kick in the chest, a shot to the mix
A little hot, make this martini shake your hips
I said tequila, margarita, seniorita please
Chase it down with a na and some sex on the beach
A yellow umbrella foamy style, a kiss on my cheek
Just you and me, that's all I need
Oh and a tall glass of something(Sippin and juggin, sippin and juggin juggin)
(Sippin and juggin, sippin and juggin juggin juggin)
