

# Work for It

Jane Zhang

[Verse 1]

Shock my body  
Light up the fire  
Can you ignite it  
Turn up the flame on itGet it started  
Pull me in close  
I want you on me  
Show me why you want it[Pre-Chorus]

Walk up to my session and  
You know I'm turning heads  
Got your eyes all on me but  
You too proud to beg  
You keep throwing signs  
But I'm not a psychic  
If you really want it  
Better get it if you can[Chorus]

You keep sending me signals  
It's like that subliminal  
My body's talking  
Without words  
I know you feel it too  
Elephant in the room  
The energy's coming throughBut imma make you work for it  
But imma make you work for it  
But imma make you work for it  
Aaa work for it  
Aaa work for it  
Aaa work for it  
Aaa but imma make it work for it

[Verse 2]

Temperature's rising  
I feel the heat  
Somebody hit the siren  
Turn up the flame on itGet it started  
You're all I need  
I want you on me  
Show me why you want it[Pre-Chorus]  
Walk up to my session and  
You know I'm turning heads  
Got your eyes all on me but  
You too proud to begYou keep throwing signs  
But I'm not a psychic

If you really want it  
Better get it if you can[Chorus]  
You keep sending me signals  
It's like that subliminal  
My body's talking  
Without words  
I know you feel it too  
Elephant in the room  
The energy's coming through But imma make you work for it  
But imma make you work for it  
But imma make you work for it  
Aaa work for it  
Aaa work for it  
Aaa work for it  
Aaa but imma make it work for it
