

Amnesia

Josh Abbott Band

If I had amnesia
I wouldn't know how much I need ya
And I wouldn't have to see ya every night
When I turn out the lights and close my eyes
Wouldn't have to forget you
Or even know I'd ever met you
I wouldn't have to regret you
Or let you wreck me one more time
What I don't know wouldn't hurt me
If I could lose my memory
I think maybe I'd be fine
If I just lost my mind
I wouldn't have to replace you
I could just erase you
And I wouldn't have to know how much I need ya
If I had amnesia
Something stronger than tequila
A little pill that would lead you right outta my head
And get me numb instead
If I went a little crazy
The movie got a little hazy
I wouldn't want you save me
Or maybe you can play me one more time
What I don't know wouldn't hurt me
If I could lose my memory
I think maybe I'd be fine
If I just lost my mind
I wouldn't have to replace you
I could just erase you
And I wouldn't have to know how much I need ya
And if I woke up tomorrow
Wasn't thinking about yesterday
And you were just a stranger
It wouldn't kill me to watch you walk away
And what I don't know wouldn't hurt me
If I could lose my memory
I think maybe I'd be fine
If I just lost my mind
I wouldn't have to replace you
I could just erase you
And I wouldn't have to know how much I need ya
If I had amnesia
If I had amnesia
