

# Drinkin' Hours

Cole Swindell

Been watchin' that clock tick-tock all day  
Sittin' here waitin' on 5  
It's Friday night, we got a job to do  
So don't let me down tonight Y'all meet me at the bar  
At a quarter past dark  
You can put the first round on me  
Well my friends  
I'm 'bout to fill you in  
We got a brand new policy  
No workin' durin' drinkin' hours  
Round here we ain't got no boss  
Part time and over timers  
'Bout to raise a little hell when we twist one off  
This is in effect for the rest of the night  
Gonna last till the light of day  
That goes for the locals and the out of towners  
No workin' durin' drinkin' hours It's just another night at the office baby  
So look at it kinda like this  
We don't work, we just drink together  
It's a business relationship With us all here  
And that workin' with beer  
It might get dangerous  
So if you're too drunk  
To climb that ladder  
Hey man, that's fine with us  
(Come on, yeah!)

No workin' durin' drinkin' hours  
Round here we ain't got no boss  
Part time and over timers  
'Bout to raise a little hell when we twist one off  
This is in effect for the rest of the night  
Gonna last till the light of day  
That goes for the locals and the out of towners  
No workin' durin' drinkin' hours (No, not round here) No workin' durin' drinkin' hours  
Round here that's how it goes  
Just a bunch of every day 9 to 5ers  
Turnin' to weekend CEOs No workin' durin' drinkin' hours  
Round here we ain't got no boss  
Part time and over timers  
'Bout to raise a little hell when we twist one off  
This is in effect for the rest of the night  
Gonna last till the light of day

That goes for the locals and the out of towners  
No workin' durin' drinkin' hours No workin' durin' drinkin' hours  
Cheers!
