

Let Me Roll

Seal

i'm a needle in a haystack
i'm a complex soul
if you get with me baby
i'ma do it allain't got no famous friends to talk about
just heart and soul
instead, believe me baby
and let me rolli'm so tired of misdemeanours
i've got on the cruise control
all i want is a chance to be here
i'm prepared to lose my soulain't got no escalade to talk about
just heart and soul
instead, believe me baby
and let me roll
let me roll
'cos i'm not too proud to beg, please
let me roll
'cos i've been kickin' inside your head, pleaseain't got no credit cards to feature now
just heart and soul
instead, believe me baby
let me rolli'm a circle in a corner
i'm a one man show
if u get with me baby
i'ma do it alli'm your fall in winter
i'm a wanted sign
and if you don't read me baby
you might lose your mind
ain't got no ring no car to? baby
i'll let you know
think ahead, believe me baby and
let me rollet me roll
i'm not too proud to beg
please
let me roll
'cos i've been kickin' inside your headain't got no credit cards to feature, now
just heart and soul
think ahead, believe me baby
and let me rolldon't play with doubt (don't play with doubt)
don't play me (don't play me)
don't play the night, uh uh baby
don't make me say it again
get ready now (get ready now)
get ready now (get ready now)let me roll (8x)ain't got no ring no car to? baby

just heart and soul
ain't got no famous friends to talk about
just heart and soul
ain't got no credit cards to feature, now
just heart and soul
instead, believe me baby let me roll
'cos i'm not too proud to beg, please
let me roll
'cos i've been kickin' inside your head, please i ain't got no escalade to talk about
just heart and soul
think ahead, believe me baby
let me roll
