Been a While

Sam Feldt

It's been a while Since I let you Cross my mind I can let you run How could i let you go Haven't seen you around for a while How could i let you go Haven't seen you naked for a while It's been a while since i let you drive a round I could choose you, lover How could i let you go Haven't seen you a round for a while And how could i let you go Haven't seen you naked for a while Haven't seen you round here for a while Haven't seen you naked for a while
