

Symptom Unknown

Maxwell

There's an ocean
Drained of all it's been
Took a bath
But just can't get clean
Wonder when you'll show
If not everything is in between
You and I were s'posed to grow old
Guess it was a symptom unknown
There's a power that knows just how you feel
We were prone to feel a love not real, oh, yeah
Wonder when you'll show
If not I'm gonna feel what I feel
You and I were s'pose to grow old
It was your symptom unknown
Unknown unknown
Blame it on them things untold
Unknown unknown
You and I were suppose to grow old
Guess it was a symptom unknown
Guess it was them things that you hold
Guess it was the way you were cold
I guess it was yeah
There's a child that used to smile
There's a man that used to feel as if, whole
Oh why
What am I suppose to do without you close
Who am I suppose to try to toast
What am I suppose to do
If you don't show me
If you don't show me
