

Spotlight

Hannah Montana

So, may I have your attention?
Look in my direction
Here you'll see the sun never sets
No, We don't have to worry
Never in a hurry
One by one the stars go to bed
And I step into the spotlight again Can't help myself I got to be
Where the lights are shinning down on me
I wanna feel the sun
So turn that walk into a run
Gonna bring the party when I come
Sing out if you wanna have some fun
And into the spotlight we will go
Follow me cause baby life's a show
And into the spotlight you will see
It's the only place to be
Oh, music's like a magnet
The best thing on the planet
It's pulling us together again
So, let's cause a commotion
Sound waves on the ocean
Wake the moon and grab your best friend
Let's step into the spotlight again Can't help myself I got to be
Where the lights are shinning down on me
I wanna feel the sun
So turn that walk into a run
Gonna bring the party when I come
Sing out if you wanna have some fun
And into the spotlight we will go
Follow me cause baby life's a show
And into the spotlight you will see
It's the only place to be
(Turn it up)
If your downhearted
(Let the music)
Get us started
Got to let it go once in a while
(Turn it up)
There's nothing to it
(When it's done)
We'll just redo it
Might as well have fun have fun in this life Can't help myself I got to be

Where the lights are shinning down on me
I wanna feel the sun
So turn that walk into a run
Gonna bring the party when I come
Sing out if you wanna have some fun Can't help myself I got to be
Where the lights are shinning down on me
I wanna feel the sun
So turn that walk into a run
Gonna bring the party when I come
Sing out if you wanna have some fun
And into the spotlight we will go
Follow me cause baby life's a show
And into the spotlight you will see
It's the only place to be Into the spotlight you will see
It's the only place for me
