

# Memories (feat. John Legend)

## Buju Banton

[Buju Banton]  
Now what shall I do?  
You confess to me that you feel the same way too, ?girl  
Girl ?come forth and ?rock my world[John Legend]  
I guess I am ?not over you, like I thought I was  
Guess I was foolin' myself, 'cause I'm still in love  
Still in love with you woman  
I still have dreams of you and I  
Can't get over you woman  
No matter how I try  
It's drivin' me crazy  
Thoughts of you with another man  
I'm losin' my lady, so sad I am  
I guess I'm not over you, like I thought I was  
I guess I was foolin' myself, 'cause I'm still in love  
[John Legend]  
Even when I try to not say the things I say  
Wasn't meant to be this way  
Love is not game to play, yes we went our separate ways  
But the memories  
Even when I try to not say the things I say  
Wasn't meant to be this way  
Love is not game to play, yes we went our separate ways  
But the memories[Buju Banton]  
Treasure yuh body but I, cherish yuh mind  
Even though it's complicated, which is most of the time  
A life without your love ain't workin' out fine  
Perception and reality, clearly define  
I bet you never know the love mi have inna mi heart  
We make simple mistakes, tear us apart  
Forgettin' where we comin' from and how it all start  
Usin' harsh words, bitter arrows and sparks  
We live inna di same house and we nuh talk  
We used to be on, now we're totally off  
Oh I wish, this was never our past  
Oh there is no love lost, know that  
[John Legend]  
Even when I try to not say the things I say  
Wasn't meant to be this way  
Love is not game to play, yes we went our separate ways  
But the memories  
Even when I try to not say the things I say

Wasn't meant to be this way  
Love is not game to play, yes we went our separate ways  
But the memories[Buju Banton]  
Over many moons, since we part  
But the memories remain with the love inna mi heart  
Care not how many friendships I start  
This spot where yuh touch, still tender and soft  
To be honest, I do miss the fires and sparks  
But I'd rather live on the rooftop or somewhere in a park  
But when did we mess up? Realize the blame  
She left me a message explaining'her pain  
She said, "I tried, even avoid  
Surroundin' distractions and outside noise  
But we both make mistakes and we both lied  
Oh, and now here we are"[John Legend]  
Even when I try to not say the things I say  
Wasn't meant to be this way  
Love is not game to play, yes we went our separate ways  
But the memories  
Even when I try to not say the things I say  
Wasn't meant to be this way  
Love is not game to play, yes we went our separate ways  
But the memories
