

More Than You Deserve

Meat Loaf

From the very first moment I saw you
I knew our love would be so strong
And from the very first moment I kissed you
I knew our joy would last so long And then I saw you making love to my best friend
I didn't know whatever to say
I saw you making love to my best friend
So I looked him right in his eyes and I said
Listen boy Why don't you take some more, it's what you came for
And don't mind me I won't throw you no curve
Have yourself a ball with my good woman
Why don't you take some more boy, it's more than you deserve
Why don't you take some more boy, it's more than you deserve
When I saw you hanging round the truck stop
Shining like an angel in the night
And when I saw you crying like a baby
I knew you'd have to be my wife And then I saw you making love to my best friend
I didn't know whatever to say
I saw you making love to my best friend
So I looked him right in his eyes and I said
Listen boy Why don't you take some more, it's what you came for
And don't mind me I won't throw you no curve
Go on have yourself a ball with my good woman
Why don't you take some more boy, it's more than you deserve
Why don't you take some more boy, it's more than you deserve Now I think I'm going to have to
leave you
Because I'm feeling much too weak to share
And the pie, oh it's cut in too many pieces
The flavor that I crave is no longer there
And then I saw you making love to two of my best friends
I didn't know whatever to say
I saw you making love to a group of my best friends
So I looked them right in his eyes and I said
Listen here, group Why don't you take some more, it's what you came for
And don't mind me I won't throw you no curve
Have yourself a ball with my good woman
Why don't you take some more boys, it's more than you deserve
Why don't you take some more boys, it's more than you deserve
Why don't you take some more boys, it's more than you deserve
