

When a Girl Likes a Boy

Haschak Sisters

I've never had a boyfriend
I guess I just never really gave too much
Thought about it
I wonder what it'd be like
When I find him
Cause I'm a little curious
How it'd happenShe's been texting on her phone late
Actin' different
Walking round wearing a smile
La la la la
Going to the movies and we're
Not invited
Wonder what she's hiding now
Almost as if...
Who's that boy?
What's his name?
Be careful what you do and
Be careful what you say
And they tell me (They tell me)
Don't give your heart away
Remember who you are and don't changeOh, but it's like
I've never felt the way that I feel
Whenever I spend time with you and everything is beautiful
When a girl likes a boy
Oh it's just like heaven, heaven
Better than what I imagined
When a girl likes a boy
Be careful what you say
Don't give your heart away
When a girl likes a boy
Oh it's just like heaven, heaven
And I've never ever felt this way
I sorta got a boyfriend
I guess I just
Never really felt this much
For somebody
And whenever I'm with him
Life is candy
And we're not that serious
We're just happyShe's been talking to him for like
Half the weekend
When will her feet touch the ground

She's in heaven
Wonder how long she's (gonna) keep on
Keep on trippin
She doesn't want us around
Let's just ask her Who's that boy?
What's his name?
Be careful what you do and
Be careful what you say
And they tell me (they tell me)
Don't give your heart away
Remember who you are and don't change Oh, but it's like
I've never felt the way that I feel
Whenever I spend time with you and everything is beautiful
When a girl likes a boy
Oh it's just like heaven, heaven
Better than what I imagined
When a girl likes a boy
Be careful what you say
Don't give your heart away
When a girl likes a boy
Oh it's just like heaven, heaven
And I've never ever felt this way I'm tryna spend more time with you
But lately you don't ever seem to wanna hang out too
Is it the movies? Or do we go to the park
You're not the same anymore
Like you've changed from before
Yeah - so what's up?
Why you act so tough
It's like - lately all you do is seem mad at us
It's not that, I don't know what to say
You'll understand one day when you're my age, you'll be like... I've never felt the way that I feel
Whenever I spend time with you and everything is beautiful
When a girl likes a boy
Oh it's just like heaven, heaven
Better than what I imagined
When a girl likes a boy
Be careful what you say
Don't give your heart away
When a girl likes a boy
Oh it's just like heaven, heaven
And I've never ever felt this way
