

# Five Minutes

## Her

[Verse 1 - Her (The Band)]

All I need is five minutes

If you can see the signs

All I need is five minutes

If you read between the lines

One for the eyes and

One for the voices

One for the touch, one for the soft grin[Bridge 1 - Her (The Band)]

And then the kisses

And then the kisses[Hook - Her (The Band)]

All I need is five minutes

All I need is five minutes

All I need is five minutes

All I need is five minutes

[Verse 2 - Her (The Band)]

All I need is five minutes

Start the ignition

All I need is your look

To hang my imagination

All I need is your view

To picture your position

We could get away

[And] ride horses

Sail along the bay, drink from the sources[Bridge 2 - Her (The Band)]

And then the kisses

Following courses

And again the kisses

Following courses

[Verse 3 - Her (The Band)]

Like a butterfly effect

One hit of a cigarette

Mistakes you don't regret

All I need is five minutes

Like a drug's side effects

Like a ride on a rocket

The love you don't suspect

All I need is five minutes[Hook - Her (The Band)]

All I need is five minutes

All I need is five minutes[Verse 4 - Her (The Band)]

Like a butterfly effect

One hit of a cigarette

Mistakes you don't regret

All I need five minutes  
Like a drug's side effects  
Like a ride on a rocket  
The love you don't suspect  
All I need is five minutes  
All I need is five minutes  
All I need is five minutes[Hook - Her (The Band)]  
All I need is five minutes  
All I need is five minutes  
All I need is five minutes  
All I need is five minutes  
All I need is five minutes  
All I need is five minutes  
All I need is five minutes  
All I need is five minutes  
All I need is five minutes
