

# Country Boy's World

Jason Aldean

She was raised up in Jersey  
I said oh Lord have mercy  
Never seen a one light town 'til she moved down here  
She said I'm so bored out of my mind  
Need a Starbucks and a wif  
Or a jet airliner to fly me anywhere  
I said do you wanna take a drive in my truck  
Don't pay no mind to that 12 point buck  
Laid across my hood  
You ever been to  
Rome Georgia  
Picked peaches off the trees  
Climbed the water tower in Paris Tennessee  
Been to Florence Alabama  
Drank muscadine wine  
Just give me a chance to change your mind  
So before you go and fly away girl  
Let me show you 'round a country boy's world  
Somewhere between there on a dirt road  
When I rolled down my window  
She smelled the scent of wildflowers on the summer wind  
With just a bite of homeade ice cream  
And a glass of Momma's sweet tea  
This ol' holler's got a way of makin' friends  
She'd never seen a glowin' field of fireflies  
Or the twinkle of a star in a southern sky  
She fell in love  
We went down to  
Rome Georgia  
Picked peaches off the trees  
Climbed the water tower in Paris Tennessee  
Went to Florence Alabama  
Drank muscadine wine  
She gave me a chance and I made her mine  
Says she'll never fly away and she's my girl  
It's 'cause I showed her 'round a country boy's world  
Oooh now she's riding shotgun  
Sayin' baby let's run wild  
And go down to Rome Georgia  
Pick peaches off the trees  
Climb the water tower in Paris Tennessee  
Goto Florence Alabama  
Drink muscadine wine  
She gave me a chance and I made her mine

Says she'll never fly away and she's my girl  
It's 'cause I showed her 'round a country boy's world
