

# Chillin' In the Summertime

## Jonas Brothers

It was a beautiful day  
I throw my worries away  
Nothing new just the same old same  
so imma start a new page I turn the radio on  
and it's my favorite song  
It's so good to sing along  
and it feels so right this can't be wrong I just want a good time

Oh oh

I don't wanna fuss and fight, no  
Life's too short to waste time

Oh no

Every little thing's gonna be alright  
Cause we're chillin in the summertime  
not a cloud in the sky  
Everybody's feeling fine  
and everything will be alright  
Cause we're soaking up the sweet sunshine  
not a worry on my mind  
Everybody's feeling fine  
and everything will be alright There's a party tonight  
where the moon shines bright  
Bring your friends and I'll bring mine  
it feels so good to be alive When the night is cool  
baby girl there's just me and you  
There's only one thing left to do  
and that's play this song for you cause  
I just want a good time

Oh oh

I don't wanna fuss and fight, no  
Life's too short to waste time

Oh no

Every little thing's gonna be alright Cause we're chillin in the summertime  
not a cloud in the sky  
Everybody's feeling fine  
and everything will be alright  
Cause we're soaking up the sweet sunshine  
not a worry on my mind  
Everybody's feeling fine  
and everything will be alright And in the morning we gon' rise  
(we gonna rise)  
Trials and tribulations pass us by  
(pass us by)

Ooh, so don't you worry love is waiting on the other side  
Every little thing's gonna be alrightCause we're chillin in the summertime  
not a cloud in the sky  
Everybody's feeling fine  
and everything will be alright  
Cause we're soaking up the sweet sunshine  
not a worry on my mind  
Everybody's feeling fine  
and everything will be alright(It's gonna be alright)  
Cause we're chillin in the summertime  
(It's gonna be alright)  
not a cloud in the sky  
Everybody's feeling fine  
and everything will be alrightCause we're chillin in the summertime  
not a cloud in the sky  
(not a cloud)  
Everybody's feeling fine  
and everything will be alright
