

No More Second Chances (feat. Jessica Ashley)

MKTO

No more second chances
No more plastic lies
No more giving me reasons to make me have to say goodbye
Oh(Rapping)
You only live once
No second chances
She says I go from The Hulk to Mr. Romantic
They calling me singing
I've been Ghost and I pull up in the Phantom
I'm bout to get the money moving
I can't sit still,
Im'ma leave you standing
SINGING
Everything we had, it's all gone
Not one more chance, I moved on
I'm doing me, so you do you
You do you
Coz this is my only life
So I've got to let you go
You should've been only mine
So I'm walking out your door singing No more second chances
No more plastic lies
No more giving me reasons to make me have to say good-bye She only want my Ricotta
Ace of Spades and Vodka
She tryin' to be my flame like Whaka Flocka with the focka
GPS on my phone and a bug in the house like she a stalker
She tryin to lock me down with a pie like she's some Betty Crocker
SINGING
No more games
No old news but new words to an old tune
Just move out the parts where I loved you
I loved you yeah
Coz this is my only life
So I've got to let you go
Should've been only mine
So I'm walking out your door singing No more second chances (no more)
No more plastic lies
No more giving me reasons to make me have to say good-bye Uh, trying to say I'm crazy
But it was you that chased me
Ain't no black and white,
There's crazy different shades of shady
Remember when I caught your fingers creeping on me (I don't remember)

Texting her at midnight, boy you just a phony oh (not me)
And I looked right past it
Like it was old news (oh yeah)
And I told myself
Why should I doubt you?
Mmmm about to turn the tables on you
I'm bout to turn the tables on you No more second chances
No more plastic lies
No more giving me reasons to make me have to say good-bye (bye bye bye bye bye) Baby
please don't go
Is there anything I can say? (No no no no more)
Baby please don't go
Yeah I'm begging you (say good bye)
Tell me is it a crime
But I might've changed my mind (yeah)
No more giving me reasons to make me
have to say good bye bye bye Say good bye
