

Fall

Dotan

Come out while the rain is gone
Slow down breathing on your road
And the world keeps spinning around while we dive in it
And the world is . in stone leaving marks on our skinCold wind beneath our wings
Bracing out till we let it in
Don't we all fall
Don't we all fall
Chasing lights of the dying winds
Change will come if we don't begin
Don't we all fall
Don't we all fall
Don't we all fall
Stone cold by the silver sea
Whipped out all is make believe
And we all we travel till the lights kick in
While we all keep climbing the walls chasing the marks on our skinCold wind beneath our
wings
Bracing out till we let it in
Don't we all fall
Don't we all fall
Chasing lights of the dying winds
Change will come if we don't begin
Don't we all fall
Don't we all fall
Don't we all fall
Waling winds come sailing in
Softly eyes...
Fading out cover in
Giving what the pleasent like
The arctic sunshine in the night
Falling stars ... sky
Don't we all fall
Don't we all fall
Don't we all fall
Don't we all fall
Don't we all fallCold wind beneath our wings
Bracing out till we let it in
Don't we all fall
Don't we all fall
Chasing lights of the dying winds
Change will come if we don't begin
Don't we all fall

Don't we all fallDon't we all fall
Don't we all fall
Don't we all fall
Don't we all fall
Don't we all fall
