

# Distant

Tate McRae & Sean Lew

I stay away  
Cause there's a part of me  
Knowing that i need  
That space to be  
Create my path and meant to be unknow  
Circle and back in to  
What means most  
I keep a distance  
For my own purpose  
And i can tell you feel the same  
The expectations and situations  
Are driving me insane  
And it don't matter cause  
I push right through  
Do you understand, I'm just like you?  
All the doubts that i have ever had were never built to last  
That's why we're distant  
For our own purpose  
That's why we're di-di-di  
That's why we're distant  
If i could know  
If these stars are true  
If i'm drifting  
I'm Shifting  
My point of view  
Cause i've been told  
I need to separate  
Get away from the crowd  
And call my way  
I keep a distance  
For my own purpose  
And i can tell you feel the same  
The expectations and situations  
And driving me insane  
And it don't matter cause  
I push right through  
Do you understand, I'm just like you?  
All the doubts that i have ever had were never built to last  
That's why we're distant  
For our own purpose  
That's why we're di-di-di  
That's why we're distant

Distant, Distant, Distant, Distant  
Purpose, Purpose, Purpose  
Distant, Distant, Distant, Distant  
Purpose  
That's why we're distant  
Distant, Distant  
For our own purpose  
Purpose, Purpose  
That's why we're di-di-di  
Distant  
This purpose  
That's why we're distant  
For our own purpose  
That's why we're di-di-di  
Distant, Distant  
I keep a distance  
For our own purpose  
That's why we're different
