

# Can't Be Broken

Lil Wayne

You cannot break down what can't be broken  
Out of all the wrinkles, I was chosen  
When all of the lights, they get low  
And all of the curtains they close  
You cannot break down what can't be broken They can do all they can do but they can't break  
unbreakable  
They scared to face the truth because they hate the view  
They taste the juice, I hope it make 'em puke, I'm breakin' loose  
Should I throw up the deuce or should I waive the deuce  
In 1982, my momma take me to a space shuttle  
Say now I'm raising you and ain't no baby food  
Unless you go and take the neighbors' food  
And be afraid of who, I made the loot  
When money went from army green to navy blue  
I said salute, bulletproof, I gave 'em proof  
Sometimes feel like my head a screw  
Twisted like tornados too  
Man, I'ma need some crazy glue  
Her walls is what I'm breaking through  
Her nails, she gone break a few  
You can never break me down and I can't hit the brakes for you  
You cannot break down what can't be broken  
Out of all the wrinkles, I was chosen (yeah)  
When all of the lights, they get low (low)  
And all of the curtains they close (they close)  
You cannot break down (you can't) what can't be broken G-code, G-code, we can't break the G-  
code  
We bros (can't be broken)  
We bros, we bros, we can't break for these hoes, G-code  
(Can't be broken) I ain't finna break or fix the brakes  
You hear me late, I'm laughing in your face  
Now, fix your face, I can't disintegrate, cause I facilitate a mil a day  
For like a million days  
At least the bills are paid, the children safe  
Want to get a way? No, I'm here to stay  
I'm really great, but don't discriminate  
Cause I done seen a mirror break behind a pretty face  
You stickin' out your chest, your titties fake  
Don't make me pick your fate  
I'm pickin' out a mate, she get replaced  
The heart was built to break  
I'm smoking icky and watching Ricky Lake

I got a lawyer that turn any case into a pillow case  
My killers straight, let's do some Q & A  
You saw the news today  
Got news to break and rules to break  
It hurt to say, they want to get Lil Tune to break  
It's worth the wait, commercial break You cannot break down what can't be broken (G-code)  
Out of all the wrinkles, I was chosen  
When all of the lights, they get low  
And all of the curtains they close  
You cannot break down what can't be broken (Uhh)G-code, G-code, we can't break the G-code  
We bros (can't be broken)  
We bros, we bros, we can't break for these hoes, G-code  
(Can't be broken)
