

Chills

Charlie Wilson

Oh oh oh Her smile
Can make a grown man blush
Like his very first crush This girl
She drives me wild
Yeah So loud
You can hear my heart beat through my chest
When we touch
Like thunder through the clouds Every night, every day
Playin' through my head, babe
Like a broken record stuck on replay
I think about you like 25, hey
Hey, hey, hey
Got me feelin' like a kid again
Always talkin' about you to my friends
That's how I know it's real
You give me chills (oh, oh, oh) Baby, up and down my spine
Everyday you're looking more and more fine
I put that on a mill
You give me chills
(You give me chills) Oh, oh, oh chills
Oh, oh, oh chills
Oh, oh, oh
You give me chills Like snow
I can melt so fast when I'm holding you close
The things that love can do, no
Can't help
Girl, I get so tongue-tied and my feet get tangled
I'm tripping over you Every night, every day
Playing through my head, babe
Like a broken record stuck on replay
I think about you like 25, hey,
Hey, hey, hey Got me feeling like a kid again
Always talking about you to my friends
That's how I know it's real
You give me chills (oh, oh, oh) Baby up and down my spine
Everyday you're looking more and more fine
I put that on a mill, you give me chills
(You give me chills) C is for the child that you bring out in me
H 'cause I'm happy when you riding next to me
I, I, I make my head spin dizzy
L times two, girl I double love you
S 'cause it feels so real You give me chills

Always talking about you to my friends
That's how I know it's real
You give me chills Baby, up and down my spine (my spine)
Everyday you're looking more and more fine (More fine)
I put that on a mill, you give me chills
(You give me chills) Oh, oh, oh chills
Oh, oh, oh chills
Oh, oh, oh
You give me chills You got me actin' like a kid again
Always talking about you to my friends
It's real
You give me chills
