Nowhere Fast

Old Dominion

Grass stained bare feet Dove in my front seat Windshield full of road to run And a gas tank full of freedomRed sky faded to black A couple cans deep in a six pack World disappearing around us Temptation always found usWith beer on our breath in a parking lot Kill the headlights so we wouldn't get caught Radio glow on the dash We were messin' around We could hardly breathe Breakin' new ground in my back seat We had our foot on the gas Goin' nowhere fast One summer of sunsets Was as far as we were gonna get So caught up in how it feels We didn't care if we were spinnin' wheelsWith beer on our breath in a parking lot Kill the headlights so we wouldn't get caught Radio glow on the dash We were messin' around We could hardly breathe Breakin' new ground in my back seat We had our foot on the gas Goin' nowhere fastYeaahee With beer on our breath in a parking lot Kill the headlights so we wouldn't get caught Here and gone in a flash Yeah We were messin' around We could hardly breathe Breakin' new ground in my back seat No way to know if it would last But we had our foot on the gas Goin' nowhere fast Goin' nowhere fast
