

# So Here We Are

## Bloc Party

I caught a glimpse  
But it's been forgotten So here we are again

I made a vow  
To carry you home  
Home I really tried  
To do what you wanted  
It all went wrong again

I made a vow  
To carry you home  
If you fall sick  
If you pass out  
Out I figured it out

I figured it out

I figured it out

I figured it out

I can see again

I can see again

I can see again

I can see again

I can see again
