

Freedom Was A Highway

Jimmie Allen & Brad Paisley

Sunset through a windshield, I can see it now
Like a picture in a frame (Picture in a frame)
Blue jeans and T-shirts, who we were
We wore it like a name (Like a name)
I wish I could go back to those days When that town was the whole world
And love was the girl next door
Soundtrack was a song in the dark
I miss those days when our dreams, were there for chasin'
But time was better wasted
We were summer young and livin' for a Friday
And freedom was a highway
Freedom was a highway
Barbwire on a fence-posts with a cross-wind
On a road no one was on (No one was on)
Five-deep with our hands up, just singin' along to a hip hop song
I wish I could rewind and replay When that town was the whole world
And love was the girl next door
Soundtrack was a song in the dark
I miss those days when our dreams, were there for chasin'
But time was better wasted
We were summer young and livin' for a Friday
And freedom was a highway
Freedom was a highway When you're seventeen and drivin'
You don't think about the road runnin' out
No, no, no, no
You just keep your eyes on that horizon
'Cause you're wrapped up in now
But I wish I could go back to those days
When the town was the whole world
And love was the girl next door
Soundtrack was a song in the dark
I miss those days when our dreams, were there for chasin'
But time was better wasted
We were summer young and livin' for a Friday
And freedom was a highway (Freedom was a highway)
Freedom was a highway (Baby, yeah)
Freedom was a highway
Freedom was a highway
Freedom was a highway
