Know Better

Kevin Gates

You should aknown when it comes to the dough I'ma get it

You should know better

Do it all for my dogs, everyday goin' hard, I'm a winner

You should know better

Used to dream about a mil

Now we gettin' it for real

Shoulda left you right there where I met you

You should known when it comes to the dough I'ma get it

I'm a bread winnerHey man what you talkin' bout? Man just do you Gates

There it is

Dabbed in, front pockets stuffed

Money look like we been doin' lunges

Raised up in the blunt, I'm doin' crunches

Tattooed all over my stomach

Out in London talkin' to Big London

Stand up in they chest, okay I love you

Niggas hatin', wait I'm doin' numbers

In they feelin's, tell 'em I say fuck 'em

Hold up, wait, tell 'em that I love 'em

We could go, we had a discussion

Fame tend to blind the people on the side of you like you never mean nothin'

Focus on brand new things

Tryna show my children how to hustle

Teach 'em how to trust one another

All we got is us and your mother

Fall down, get back up again

Lose it all right before you win

Kevin man, you messin' up your gift

Shit like this be hard to come again

Fall bad, I know I admit it

Real struggle, I don't ever quit it

Thinkin' back when I ain't have a cent

Back when I ain't have a shit to give

You should aknown when it comes to the dough I'ma get it

You should know better

Do it all for my dogs, everyday goin' hard, I'm a winner

You should know better

Used to dream about a mil

Now we gettin' it for real

Shoulda left you right there where I met you

You should known when it comes to the dough I'ma get it

I'm a bread winnerShe spoken to me bruh. Yeah she spoken to me you know "I'm sorry bruh I

like this shit, you heard me?" Shit bothered me I'm a bread winner
