

It's About to Get Dirty

Brantley Gilbert

Weather man says its gonna rain
Don't worry girl wont change a thing
Yeah we still got plains tonight
Maybe some day best at home
Will be the last time you wear what you got on
Bikini top cut off jeans damn baby girl you know your looking mean
She said how were gonna make it threw the mud hole
What you think i got swampers on my truck for
Its about to get dirty in the dirty south
bout to show you whats its all about
dont worry its a rowdy crowd
We aint scared were still throwing down
We gonna tap that keg
Light that fire were gonna crank that country
pass out shots and get thirsty
let it rain, let it rain, let it rain
Its about to get dirty yeah
Just something about the good ole flood
Watching that red clay turn to mud
Slinging up slap past the doors
Like a new paint job on a 4x4
Girl your gonna have a good ole time
Can't let a little bit of rain change your mind
Let your hair down kick off them boots
For once in your life let yourself cut loose
Gonna get muddy from head to toe
Clean off skinny dipping in the swimming hole
Its about to get dirty in the dirty south
bout to show you whats its all about
dont worry its a rowdy crowd
We aint scared were still throwing down
We gonna tap that keg
Light that fire were gonna crank that country
pass out shots and get thirsty
let it rain, let it rain, let it rain
Its about to get dirty yeah
Its about to get dirty
Girl your whole life is about to change
Baptise in muddy water let me hear you say
Let it rain, let it rain, let it rain
Its about to get dirty in the dirty south
bout to show you whats its all about
dont worry its a rowdy crowd
We aint scared were still throwing down

We gonna tap that keg
Light that fire were gonna crank that country
pass out shots and get thirsty
let it rain, let it rain, let it rain
Everybody get thirsty yeah
Let it rain, let it rain, let it rain
Its about to get dirty yeah
Its about to get dirty C'mon Nasty
