

# I'm Good, I'm Gone

Lykke Li

Working in the corner  
Peeking over shoulders  
Waiting for my time to come  
Working in the corner  
One day to the other  
Butter for my piece of bun Working in the corner  
Peeking over shoulders  
Waiting for my time to come  
Working in the corner  
One day to the other  
Butter for my piece of bun Stepping, I'm stomping, I'm all gone  
Give me the tone and I'm all gone  
Yeah, I'm walking by the line  
Not here, but in my mind  
I'm working, I sweat but it's all good  
I'm breaking my back but it's all good  
'Cause I know I'll get it back  
Yeah, I know your hands will clap  
Yet, I'm looking, yet, I'm working  
To make butter for my piece of bun And if you say, I'm not okay, we must go  
If you say there ain't no way that I could know  
If you say I aim too high from down below  
Well, say you're not 'cause when I'm gone  
You'll be calling but I won't be at the phone And you hanging around 'til it's all done  
You can't keep me back once I had some  
No wasting time to get it right  
And you will see what I'm about  
Good, I'm working, I sweat, but it's all good  
I'm breaking my back but it's all good  
'Cause I know I'll get it back  
Yeah, I know your hands will clap And if you say I'm not okay, we must go  
If you say there ain't no way that I could know  
If you say, I aim too high from down below  
Well, say you're not 'cause when I'm gone  
You'll be calling but I won't be at the phone Working in the corner  
Peeking over shoulders  
Waiting for my time to come And if you say I'm not okay, we must go  
If you say there ain't no way that I could know  
If you say I aim too high from down below  
Well, say you're not 'cause when I'm gone  
You'll be calling but I won't be If you say I'm not okay, we must go  
If you say there ain't no way that I could know

If you say I aim too high from down below  
Well, say you're not 'cause when I'm gone  
You'll be calling but I won't be at the phone
