

# Come Back

Usher

Ooh, Ooh, HeyNa, Na, Na, Na, Na.(Jermaine Dupri:)

What ya wanna do?

What ya wanna do?

Tell me.

See around here, we're just too much

We could slow down and you still couldn't catch us

My town full of heavy hitters,

Bread getters, real fly unforgettable type niggas

See all I do is keep hittin' 'em up

Gettin' 'em up.

Nigga, what Little Liberaci

Can't nobody stop me

Always makin' moves

So you better watch me, slide

To the southside in my blue drop top

355 keepin' it live

When you wanna make 'em jump, jump

You know what to do

Call me and my crew to the rescue

Captain So So Def

We rocks the party till there's no one left fo' sho'

Turn your volume up a notch

And watch the ba bump bump bump bump

Make your speakers pop.

(Usher:)

You never miss your water your well runs dry

I missed my woman she said goodbye

Now my heart's made a change

My whole world's rearranged

And I'm ready

To give you what you deserve

Baby baby baby please.Come back come on come on Come back

Lover this is where you belong

In my arms, in my world

As my girl

Come Back, come back Come Back

Lover this is where you belong

In my life, as my girl.

The grass is greener on the other side

We take people for granted till they're out of sight

I think that you know how much I'm going through,

I think that you know how much I really love you.All I do, is think of you

I can't eat, I can't sleep  
Baby it ain't hard to see, all I do  
All I do  
Is think of you  
And your bump, bump, bump, bump  
Bump, bump baby. Come back Come back  
Lover this is where you belong  
In my arms, in my world  
As my girl  
Come Back, come back Come Back  
Lover this is where you belong  
In my life, as my girl. It's not what you want baby  
But what you need suar  
Come back with me  
Satisfaction garenteed baby.
