

# Don't Get Me Wrong

Lewis Capaldi

Pray silence, I'm begging  
Too tired to tell you I ain't coming home  
Stop for a second  
Guess I got caught up in leading you on  
And I ain't responsible for the lump in your throat Haven't you had enough of all of this?  
Haven't you had enough of loneliness? Don't get me wrong, I'd love to stay too long  
Don't get me wrong, I'd love to tell you whatever you want  
But haven't you had enough of loneliness?  
And haven't we had enough of second best?  
So don't get me wrong  
Innocent then  
Way back before we knew how to pretend  
Picking up where we left  
It ain't meant to be easy, shouldn't be hard as this  
And I ain't responsible for letting this go Haven't you had enough of all of this?  
Haven't you had enough of loneliness? Don't get me wrong, I'd love to stay too long  
Don't get me wrong, I'd love to tell you whatever you want  
But haven't you had enough of loneliness?  
Haven't we had enough of second best?  
Don't get me wrong  
Don't get me wrong I just don't wanna be the devil, you know  
And it hurts the most when you come too close  
Don't get me wrong, I'd love to stay too long  
Don't get me wrong, I'd love to tell you whatever you want  
But haven't you had enough of loneliness?  
Haven't we had enough of second best?  
Don't get me wrong
