

# Window Seat (TCTS Remix)

## Fuse ODG

Yeah, window seat  
From the street to the window seat  
See your sweet from my pillow sheet  
Thank you for keeping me nice and sweet  
Yeah, from my window seat  
Looking back at my history  
Never thought I see this glory  
Hold me like a big trophy Oh captain I turn on the engine  
Let's park it up  
And I see my friend there, and they're turnin' up  
So follow me, first class I send it, we movin' up  
Oh mama, your prayers have blessed me  
Just look up and see  
Oh my god, you make me great  
You make me high, to a higher place  
Oh my god, you make me great  
You make me high, to a higher place Yeah, window seat  
See the cars from my window seat  
Went through pain gettin' on my feet  
And I wish I pray when it's time to eat  
Yeah, from my window seat  
Sit with me, front row three  
I've been through the trouble and so did to victory Oh captain I turn on the engine  
Let's park it up  
And I see my friend there, and they're turnin' up  
So follow me, first class I send it, we movin' up  
Oh mama, your prayers have blessed me  
Just look up and see  
Oh my god, you make me great  
You make me high, to a higher place  
Oh my god, you make me great  
You make me high, to a higher place All the seats calling me  
O-M-G  
All the seats, all for me  
O-M-G, OMG Oh my god, you make me great  
You make me high, to a higher place  
Oh my god, you make me great  
You make me high, to a higher place Window, window  
Window, window  
Window, window  
Window, window  
Window, window, (it's a worldwide movement)

Window, window  
Window, window, (take off)  
Window, window  
All the seats calling me  
O-M-G  
All the seats, all for me  
O-M-G, OMG
