

# Flamboyant

## Pet Shop Boys

You live in a world of excess  
where more is more  
and less is much less  
A day without fame  
is a waste  
and a question of need  
is a question of taste You're so flamboyant  
the way you look  
It gets you so much attention  
Your sole employment  
is getting more  
You want police intervention  
You're so flamboyant  
the way you live  
You really care that they stare  
And the press deployment  
is always there  
It's what you do for enjoyment  
You live in a time of decay  
when the worth of a man  
is how much he can play  
Every day  
all the public must know  
where you are, what you do  
'cause your life is a show and You're so flamboyant  
the way you live  
and it's not even demeaning  
You're so flamboyant  
It's like a drug  
you use to give your life meaning  
You're so flamboyant  
The way you look  
It gets you so much attention  
Your sole employment  
Is getting more  
You want police intervention  
Every actor needs  
an audience  
Every action is  
a performance  
It all takes courage  
You know it

Just crossing the street  
well, it's almost heroic  
You're so flamboyant There you are  
at another preview  
In a pose  
the artist and you  
To look so loud  
may be considered tacky  
Collectors wear black clothes  
by Issey Miyake You're so flamboyant  
the way you look  
It gets you so much attention  
Your sole employment  
is getting more  
You want police intervention  
You're so flamboyant  
The way you live  
You really care that they stare  
And the press deployment  
is always there  
It's what you do for enjoyment You're so flamboyant  
You're so flamboyant
