

Heavy

Collective Soul

Complicate this world you wrapped for me
I'm acquainted with your suffering And all your weight
It falls on me, it brings me down
And all your weight
It falls on me, it falls on me Hold me up to all whom you've deceived
Promises you break you still believe And all your weight
It falls on me, it brings me down
And all your weight
It brings me down, it brings down
And all your weight
It falls on me, it brings me down
And all your weight
It falls on me, it falls on me
And all your weight
It falls on me, it brings me down
And all your weight
It falls on me, it falls on me
