Hank It

Justin Moore

A lot of things a country boy learns in life
How to shoot a gun and how to use a knife
But when I pulled in to Hershey, PA
I Took my guitar up on the big stageThat night I did the best I could
Me and the boys played pretty darn good
Then I took myself out, sat in the crowd
And I learned how Bocephus shakes 'em downYou gotta hank it, you can't sip whiskey, gotta
drink it

Push it up to ten and crank it

If you wanna keep your women you, gotta spank it

If you ain't got a boat, you gotta bank it

Live it just like he sings it, you gotta hank it

There was a smokin' little blonde sittin' next to me

Said, how'd you make it here from Tennessee

She must've been late and didn't catch my show

But when you play at 7, that's the way it goesSo I tipped my hat and we sang along

To where have all my rowdy friends gone

I climbed up on the bus after the show

Had a shot of Jim Beam and we hit the roadYou gotta hank it, you can't sip whiskey, gotta drink it

Push it up to ten and crank it
If you wanna keep your women, gotta spank it
You ain't got a boat, you gotta bank it
Live it just like he sings it, you gotta hank it
You gotta hank it, you can't sip whiskey, gotta drink it
Push it up to ten and crank it
If you wanna keep your women, gotta spank it
Ain't got a boat, you gotta bank it
Live it just like he sings it, you gotta hank it
You gotta hank it
