

Waiting All Night

Phish

Up all night and I'm waiting for you to come home
Waiting all night
Waiting all night
My mind is racing and I'm wondering what I did wrong
Waiting all night
Waiting all night Where could you be
I'm so alone
Won't you please come home Sun's coming up
And I'm rolling over
But I'm holding on
Waiting all night
And I said I'm sorry
Waiting all night
But you went so far away
Waiting all night
Don't know why you
Waiting all night
Left me this way
Waiting all night
Just sail on, sail on
Waiting all night
And I said I'm sorry
Waiting all night
But you went so far away
Waiting all night
Don't know why you
Waiting all night
Left me this way
Waiting all night
Just sail on, sail on
Waiting all night
And I said I'm sorry
Waiting all night
But you went so far away
Waiting all night
Don't know why you
Waiting all night
Left me this way
Waiting all night
But you sail on, sail on
Waiting all night
Sail on, sail on

So far away
So far away
So far away
So far away
Waiting all night
Waiting all night
(So far away) waiting all night
Waiting all night
(So far away) waiting all night
Waiting all night
Waiting all night
And I said I'm sorry
Waiting all night
But you went so far away
Waiting all night (so far away)
Don't know why you
Waiting all night
Left me this way
Waiting all night (so far away)
But you sail on, sail on
Waiting all night
And I said I'm sorry
Waiting all night
But you went so far away
Waiting all night (so far away)
Don't know why you
Waiting all night
Left me this way
Waiting all night
