Break My Habits

Topic

This is not like me, I don't get that deep
I'm usually puttin' all my walls up in-between
I cannot fight this 'cause you make me weak
My hear is pumpin' like it's following the beatYou have got me feelin' like I'm trippin'
Seen a lot of shit, but you're the real thing
Nothing like a lovin' that I've witnessed
When you're with meSo just feel my touch and let it
Make you feel alright
And I might just break my habits

And stay with you tonight
I'll break my habits
I'll break my habits

And stay with you tonight

I'll break my habitsAlways start off and fight on my own

Now I'm relying on your love to get it onYou have got me feelin' like I'm trippin'

Seen a lot of shit, but you're the real thing

Nothing like a lovin' that I've witnessed

When you're with meSo just feel my touch and let it

Make you feel alright

And I might just break my habits
And stay with you tonightI'll break my habits
I'll break my habits

I'll break my habits

All that I need is a quick fix from you, baby You'll wanna leave 'cause I give something new so I'llI'll break my habits I'll break my habits
