

# Supremacy

## Muse

Wake to see — your true emancipation is a fantasy  
Policies have risen up and overcome the brave  
Greatness dies, unsung and lost, invisible to history  
Embedded spies brainwashing our children to be mean You don't have long  
I am on to you  
The time, it has come to destroy...  
Your supremacy You don't have long  
I am on to you  
The time, it has come to destroy...  
Your supremacy
