

# Goodbye Time

**Blake Shelton**

It's your life - you say you need a change  
Don't all the dreams we've seen come true mean anything  
You say it's different now and you keep staring at the door  
How can you walk away don't I matter anymore  
If being free's worth what you leave behind  
And if it's too late for love to change your mind  
Then it's goodbye time  
If we had known our love would come to this  
We could have saved our hearts the hurt of wasted years  
Well it's been fun - what else can I say  
If the feeling's gone words won't stop you anyway  
If being free's worth what you leave behind  
And if it's too late for love to change your mind  
Then it's goodbye time  
Goodbye Baby
