

# Ain't No Stopping Us Now

Kane Brown

We'll be road tripping rolling with the top down south bound little bikinis and white sand  
Cant sleep gotta leave  
Summer sun starting to peak  
Through my window letting me know  
times up and its time that we go  
Got a lead foot waiting and a pocket full of cash  
cooler full of beer and a little something stash  
in the back  
Of the car  
so relaxed there aint a beach too far  
We'll be road tripping rolling with the top down south  
bound little bikinis and white sand  
and tank top gonna let the guns out  
all about rocking that farmers tan  
Got the chevy going seventy  
all the girls looking heavenly  
A bunch of kick back and chill out a head of me  
Get wild raising hell and leaving this town  
like there ain't no stopping us now  
No telling no telling  
but them lips taste like watermelon  
Got a dakari kiss a kind when it hits makes you wanna get going there  
To wherever that is  
We'll be road tripping rolling with the top down south bound little bikinis  
and white sand  
and tank top gonna let the guns out  
all about rocking that farmers tan  
Got the chevy going seventy  
all the girls looking heavenly  
A bunch of kick back and chill out a head of me  
Get wild raising hell and leaving this town  
like there ain't no stopping us now  
No there aint no stopping us now  
There aint no stopping us now  
We'll be road tripping rolling with the top down south bound little bikinis and white sand  
and tank top gonna let the guns out  
all about rocking that farmers tan  
Got the chevy going seventy  
all the girls looking heavenly  
A bunch of kick back and chill out a head of me  
Get wild raising hell and leaving this town  
like there ain't no stopping us now  
(We'll be road tripping rolling with the top down south bound  
little bikinis and white sand)  
no there aint no stopping us now  
(and tank top gonna let the guns out all about rocking that farmers tan)

there aint no stopping us now  
(got the chevy going seventy all the girls looking heavenly a bunch of kick back and chill out a  
head of me)  
no there aint no stopping us now (get wild raising hell and leaving this town)  
There aint no stopping us now
