Single Saturday Night

Cole Swindell

I was out takin' shots throwin' down at the spot
Three sheets just me and the guys
Every single Saturday night
I was killin' time crushin' cans
Tryin' not to catch a tan
Cause I was under them neon lights
Every single Saturday night, yeah
Everybody knew they could find me there
Then right out of the blue, right out of nowhere out of nowhereSittin' over in the corner baby I saw
Pretty red lips workin on a white claw
Shakin' to a little shook me all night long
And I thought man what a beautiful sight
Ain't a mornin' you don't you wake up in my shirt now
Even holdin' hands walkin' outta church now
Who'd have thought baby lookin' back
That that would be last single saturday night yeah
My last single Saturday night
Now when I'm out havin' a drink or two
If they see me well they see you
Cause girl I got you by my side
Every single Saturday night, yeah
Every now and then the boys tell me they miss me
Oh but they all get it cause they were right there with me
Yeah with me when..Sittin' over in the corner baby I saw
Pretty red lips workin on a white claw
Shakin' to a little shook me all night long
And I thought man what a beautiful sight
Ain't a mornin' you don't you wake up in my shirt now
Even holdin' hands walkin' outta church now
Who'd have thought baby lookin' back
That that would be last single saturday night yeah
My last single Saturday night
The last time that I'd buy a drink for a girl I've never met before
I wasn't lookin' for love when I walked through the door
But damn if I didn't find what I wasn't even lookin' for...Sittin' over in the corner baby I saw
Pretty red lips workin on a white claw
Shakin' to a little shook me all night long
And I thought damn what a beautiful sight
Ain't a mornin' you don't wake up in my shirt now
Look at us even picking out a church now
Who'd have thought baby lookin back

That that would be last single Saturday night yeah
My last single Saturday night
