

Scream

Tank

Look me in eyes, while I'll make love to you, girl
I wanna see your face, I wanna know you feel it
And I won't be surprised because I know I feel it too, girl
And I ain't into keeping secrets anymore 'Cause I already know you love it, babe, sometimes
I just wanna hear you say it, yeah
I want you to tell me just how good it feels tonight Scream when your fed up
You scream when your sick and tired, baby
You scream when you packed your bags
And you walked up out the door
So let me hear you now Scream 'cause it feels good
Scream, girl, 'cause were making love like crazy
Scream when your calling my name out
And you beggin' me for more
Let me hear you
Oh, oh, oh, oh, oh, oh
Let me hear you
Oh, oh, oh, oh, oh, oh Tell me that it's mine
Tell me you'll do it again, I wanna hear it right now, baby
Make it up to daddy 'cause you been a bad girl, yeah
Tell me I'm a man, tell me, baby, yeah, it's all yours
That's what I need to hear right now from you, girl 'Cause I already know you love it, babe
But sometimes just wanna hear you say it, yeah
I want you to tell me just how good it feels tonight Scream when your fed up
You scream when your sick and tired, baby
You scream when you packed your bags
And you walked up out the door
So let me hear you now
Scream 'cause it feels good
Scream, girl, 'cause were making love like crazy
Scream when your calling my name out
And you beggin' me for more Let me hear you
Oh, oh, oh, oh, oh, oh
Let me hear you
Oh, oh, oh, oh, oh, oh Scream 'cause our love's so right
Scream while I love ya all night
Scream while I hold your body tight
Go head, let me hear ya Scream 'cause you know it's on now
Scream till the tears fall down
Scream till you let me have my way
Let me hear Scream when your fed up
You scream when your sick and tired, baby
You scream when you packed your bags

And you walked up out the door
So let me hear you nowScream 'cause it feels good
Scream, girl, 'cause were making love like crazy
Scream when your calling my name out
And you beggin' me for moreLet me hear you
Oh, oh, oh, oh, oh, oh
(Oh, let me hear you)
Oh, let me hear you
Oh, oh, oh, oh, oh, oh
(Let me hear you)
