

# Playin' Hard

## Trey Songz

We just broke up this kinda new  
I admit I'll still be right through  
I heard you got another nigga too  
I've seen his benz that 2009 sh-t  
Plus your homegirl I just f\*\*\*  
'Cause she let all my friends hit  
That's our subject I know fucking brain  
The papers keep them judges tell 'em  
Haters they some busters bad dude  
Then I exit like I work out in public  
Got plenty girls so many girls  
And pieces of me love it  
But some pieces of me doesn't  
Guess that's a players nature  
Guess I holla at you later  
Are you really done, I mean really done with me?  
You said you will be here counting millions with me  
Now you gone, my baby's gone you're gone  
And I want for you to come on home  
I'm going crazy  
But I can't act that, freshen up back  
My cup is full of hennessy just me and my mentally  
Windows down another two rollies  
Where I'm 'bout to go I don't know But I'm, but I'm sick of playing hard  
I give up girl, sick of fighting this war  
'Cause I'm losing if I'm losing you  
Can't shake, heart break, can't fake baby wait  
I'll say it, I admit it girl I've been a fool  
Sick of playing hard, I'm sick of playing hard I'm sick of playing hard but that's something that I  
can't help  
I know these broads I've disgusted with my damn self  
My back you would massage I miss how your hands felt  
But the show's goes on, and this season left a bad low  
Catch me in Miami puerto rican with a dance on  
Talk is something sexy but I never understand her  
Te amo mami but yo no se, I'm lonely mami, I'm not ok  
But I can't act that, freshen up back  
My cup is full of hennessy just me and my mentally  
Windows down another two rollies  
Where I'm 'bout to go I don't know But I'm, but I'm sick of playing hard  
I give up girl, sick of fighting this war  
'Cause I'm losing if I'm losing you

Can't shake, heart break, can't fake baby wait  
I'll say it, I admit it girl I've been a fool  
Sick of playing hard, I'm sick of playing hard I'm so sick of frontin' like I don't miss you when  
you leave  
And laying in bed at night you even sexy girl when you sleep  
Feels a little crazy lying here alone  
But I'm stuck on it, stuck on it  
That I be on, that I be on  
Any stunt, that got me smoking, driving, drinking girl  
I'm tripping, blowing up your phone But I'm, but I'm sick of playing hard  
I give up girl, sick of fighting this war  
'Cause I'm losing girl  
Can't shake, heart break, can't fake baby wait  
I'ma say it, I admit it girl I've been a fool  
Sick of playing hard, I'm sick of playing hard So uh  
(Sick of playing hard)  
Yeah I'm just  
(Sick of playing hard)  
Without you  
Feels a little crazy  
Yeah  
Just, I just  
I'm sick of playing hard
