Night Owl

Little Big Town

Uuuuh uuuh Where the stables the skies will meet Through the lonely and deserted streets I've been wandering my way Back home. Uuuuh, see the girl with the secret smile There goes my heart million miles away Where ever I roll. Praying for bright head lights Coming over the hills (I'll never go away again, I swear.) It's turning darker with the passing time, But I'll be here still. (I hope you're not asleep when I get there) I'm a night owl waiting for you. Uuuuh uuuh Counting lights, and water houses I'm making ground, burning daylight hours Getting lost in the rolling field, pastors. Uuuuh uuuh But as the stars began to fall I find myself tryna to count them all And wish on one to hear me there faster. Praying for bright head lights Coming over the hills (I'll never go away again I swear.) It's turning darker with the passing time, But I'll be here still. (I hope you're not asleep when I get there) I'm a night owl waiting for you. Hury up, hury up Before the morning I'll be staying up, staying Dreaming of you. Praying for bright head lights Coming over the hills (I'll never go away again I swear.) It's turning darker with the passing time, But I'll be here still. (I hope you're not asleep when I get there) I'm a night owl waiting for you. I'm a night owl waiting for you. Uuuuh uuuh
