Life of the Party

The Weeknd

Welcome to the other side You're lost Baby step outside your mind You've been really good You've been really good You've been thinking bout being bad ever since I put you on She got money for blow Just check her damn nosePrescription ain't an issue You can mix it with the uh And if you wanna do it, baby I'm right here with you I'm on cloud 9 Baby you're behind You can follow me You can follow me if you want To go downtown with the drugs in your body Take that step you're the life of the party Know that step you're the life of the partyI got 2 little ladies I got 1 little room There's a room full of niggas Baby what you wanna do? The way you move got me feeling so uhh I been thinking about it baby I been thinking about it latelyI'm so far gone and you are too Show me how you go downtown With the drugs in your body Take that step, you're the life of the party Know that step, you're the life of the party I love how you touch How you feel How you breath Baby how you do it so goodHow you twist with your hips got the room so slow baby Girl please don't go You're gonna please my boys You been thinking about it babyYea you're a star Oh you Knocked one down Yeah you knocked one down Girl, there's 123 Go downtown with the drugs in your body Take that step you're the life of the party Know that step you're the life of the party
