James Brown

[Cage the Elephant](#)

Run around the corner
Fell asleep in the sun
You had to move into the shade
Before you fire the gunWe got a hunger for destruction
Need someone to bleed
You sealed the deal before the dawn
You let your actions proceedSome sunny day they're gonna come for you
Some sunny day they're gonna come for you
Sooner or later said you know that it's true
Some sunny day they're gonna come for youYou think you're so sly
You tried to roll by
You played the safe side
You said will somebody take me
Down town
Another James Brown
You made the same sound
You said will somebody write this down .... downFightin' back revenge
You've got you're face to the ground
You make excuses for the madness
You've been hanging aroundYou built a house up in the trees
So you could see everyone
You set the clock and had a run
You set the clock and had a runSome sunny day they're gonna come for you
Some sunny day they're gonna come for you
Sooner or later said you know that it's true
Some sunny day they're gonna come for you
You think you're so sly
You tried to roll by
You played the safe side
You said will somebody take meDown town
Another James Brown
You made the same sound
You said will somebody write this down... down
Some sunny day they're gonna come for you
Some sunny day they're gonna come for you
Sooner or later said you know that it's true
Some sunny day they're gonna come for youYou think you're so sly
You tried to roll by
You played the safe side
You said will somebody take meDown town
Another James Brown
You made the same sound

You said will somebody write this down
