

# Lean Into It

## Little Big Town

These days are filled with trouble  
And the nights feel like they're all getting longer  
These days are dark and gray  
Like that storm rolling in across the water  
There's a strong wind blowing  
I push on, it pushes back  
It's a hard time but I know I'll get through it  
Just gotta lean into it  
This ain't where I thought I'd be  
If I could I'd stop it now and I'd rewind it  
But this ain't where I'm gonna fall  
If there's a way to fight I know I'm gonna find it  
There's a strong wind blowing  
I push on, it pushes back  
It's a hard time but I know I'll get through it  
Just gotta lean into it  
I keep going even though  
There's a strong wind blowing  
I push on, it pushes back  
It's a hard time but I know I'll get through it  
Yes, I will, just gotta lean into it  
Just gotta lean into it
